WELCOME TO GAMSWEN

Let me tell you a little about it. As a Graphic Design student I need to have a wide knowledge of the histories of art and design, to gain some extra knowledge covering a number of areas of art and design. gaMsweN is a project organised by lecturer Mark Ingham which includes 12 weeks of lectures from himself and many guest lecturers covering this variety of topics.

I have taken on the role investigative journalist taking in depth notes on the lectures or recording the lecture using my laptop or a video camera, I have then conducted further research on the subjects in order to produce the following articles. These articles can be found under the 'hot topics' section of this blog.

Each topic covered requires has its own on my blog which will be a minimum of 300 words; this blog also includes a featured article on the topic 'digital death' as this quite a new topic and we are constantly seeing new issues regarding the development of new technologies it seemed to evoke the most thought and questions for me.
